Quantities, knowing facts and people

Berapa works for countable quantities and prices. Say **berapa apel?**, **enam apel**. Numbers do not require a doubled noun.

Tahu is knowing a fact; **kenal** or **mengenal** is knowing a person or animal: **Saya tahu nomor itu**, **Saya kenal Miko**.

Banyak means much/many; **sedikit** a little/few. In real prices, **dua ratus dua puluh ribu** is 220,000. **Tidak punya** negates having; **belum punya** means do not have yet.
