Simple present and wanting an action

Use the present simple for facts and routines: **I live downstairs, Jack plays the trumpet.** With **I/you/we/they** use the base verb. With **he/she/it** usually add **-s**: **he plays, she lives.**

After **want**, use **to** plus the base verb: **I want to sleep.** This **to** plus base verb is an infinitive. The second verb does not take a person ending: **Jack wants to sleep.**

English distinguishes a routine from what is happening now. The scene phrase **I'm going to the café** is learned as a whole useful message here; the present continuous is taught productively in module 5.
