Ordering actions and taking medicine

Prije • poslije • nakon take genitive: **prije jela, poslije jela, nakon koncerta**. These are ordinary time phrases, not a different verb tense.

Prema uputama na pakiranju says according to the packet instructions. **Uzimati** means take; do not confuse taking medicine with taking a tram ticket or picking an object when looking up a whole phrase.

Tek sam ustao • ustala is have just got up, a real perfect form. **Za dvije minute** is in two minutes. **Čepići za uši** are earplugs; **uši** is the ear plural, not a learner-sex variant.
